

SENTENCE IMPOSED ON BOMB PLOTTERS

Fay and Scholz Draw Eight
Years Each; Daeché Es-
capes With Two.

GERMAN CONSUL INDICTED BY FEDERAL GRAND JURY

Charged With Having Participated
With Others in Obtaining Fraud-
ulent Passport.

NEW YORK, May 9.—Robert Fay, former lieutenant in the German army, and his brother-in-law, Walter Scholz, convicted in the federal court yesterday of conspiring to destroy munitions ships of the allies through bomb contrivances, were today sentenced to serve eight years each in the federal penitentiary at Atlanta. Paul Daeché, also convicted, but with a recommendation of leniency, was sentenced to two years.

The jury last night returned the verdicts in the case of Fay and Scholz, who were charged with having conspired to destroy munitions ships of the allies through bomb contrivances. The maximum penalty provided by law is twelve years imprisonment and a fine of \$10,000.

Fay heard the verdict unmoved. Scholz straightened up in his chair, while tears welled in the eyes of Daeché. Fay and Scholz were returned to the Tombs, but Daeché was released under \$25,000 bail. Fay declared his lawyers would appeal from the verdict.

The government charged that Fay was the leader in the conspiracy and that Scholz and Daeché aided him. Fay was arrested in New Jersey as he was about to experiment with powerful explosives. Daeché was successful in fighting extradition from New Jersey for several months, but finally was given into the custody of this district.

The jury deliberated on the case for five hours, and, in reaching a verdict, asked for clemency in behalf of Daeché, who, according to his own statements and those of Fay and Scholz, was an employee of Fay and knew little of the details of the "fire bomb" plots.

German Consul Indicted.

Carl A. Luederitz, German consul at Baltimore, Md., was indicted by the federal grand jury here yesterday charged with procuring a false passport for Horst von der Goltz, confessed spy. Another indictment was handed down charging Wolfe von Igel, former secretary of Capt. Franz von Pappen, recalled German military attaché, Dr. Walter L. Scheele, already indicted in the alleged "fire bomb" plot, and "Gustave" Steinberg, alleged aid of Franz von Rintelen, German agent, with conspiring to falsify a ship's manifest in sending a cargo of gunpowder to Germany.

The indictment against Consul Luederitz charges that he obtained a passport for von der Goltz in the name of Bridgman W. Taylor from the Secretary of State at Washington August 24, 1914, and that October 2 of the same year the passport was used by the Italian consul general here. On the following day von der Goltz sailed for Genoa, Italy, on board the Italian liner Duca d'Aosta.

Oil Reduced to Powder.

The indictment states that the lubricating oil was manufactured at the plant of the New Jersey Agricultural Chemical Company of Hoboken, N. J., between January 1, 1915, and November 12, 1915, and that August 6 of that year Dr. Scheele, as head of the concern, arranged for the shipment of 720 bags of the oil, chemically reduced to powder and billed as fertilizer, on the steamship Estom of the Intercoastal Transportation Company of America, Inc., to Germany, via Sweden. It was in Dr. Scheele's plant that the bombs in the "fire bomb" plot were alleged to have been manufactured.

Dr. Scheele engaged as shipper Fred-

erick Henjes, Jr., of this city; the government alleges. Prior to the departure of the Estom, the indictment charges, von Igel paid the freight charges for the oil to Henjes. He gave Henjes two checks, one dated August 2, 1915, was for \$1,310.75, and the other, dated October 5, 1915, was for \$906.75. The oil never reached its destination. The Estom was seized by the British and its cargo confiscated.

Indictment a Surprise.

BALTIMORE, Md., May 9.—"I know nothing about this case of Horst von der Goltz, except what I have read in the papers," said Carl A. Luederitz, German consul here, indicted in New York yesterday, charged with procuring a false passport for von der Goltz. "It is a surprise to me; that is all I have to say," he added.

PLEA SENT TO COMMITTEE.

Resolution to Let Women Speak in Senate Following Adjournment. Senator Curtis of Kansas has introduced in the Senate a resolution permitting representatives of the conference of women voters, which takes place in Salt Lake City, May 11 and 12, to appear in the Senate chamber and address the Senate immediately after adjournment of that body, May 16, at 5 o'clock. Senator Curtis asked immediate consideration of his resolution, but Senator Overman of North Carolina, chairman of the rules committee, objected and moved that the resolution be sent to the rules committee. This motion was followed.

The resolution was offered at the request of the Congressional Union for Woman Suffrage.

Daylight Saving for England.

LONDON, May 9.—The house of commons yesterday, after a short discussion, adopted the motion of Sir Henry Norman, favoring daylight saving. The vote was 170 to 2. The government will introduce a bill immediately, and it, as seems certain, it passes all stages this week, the daylight saving measure will go into effect Saturday, May 20, when, at midnight, clocks will be advanced one hour.

PRESIDENT IS TO SPEAK AT SCHOOL ANNIVERSARY

Exercises at Hampton Institute
Thursday in Connection With
Corner Stone Laying.

President Wilson is expected to be entertained at Hampton Thursday to attend the forty-eighth anniversary of Hampton Institute and to speak at the exercises which will be held when the corner stone of the Robert C. Ogden Auditorium is laid. The President and a distinguished body of visitors, including Secretary David F. Houston, Secretary Franklin K. Lane, Gov. Stuart of Virginia, President Alderman of the University of Virginia and members of the southern education board are to pay tribute to Mr. Ogden's educational statesmanship and Hampton's relation to national progress.

Special Guests Expected.

Special parties from northern cities, from Norfolk and from Richmond are to be entertained at Hampton Institute and will visit the trade school, domestic science, agricultural buildings and the community school—generally known as the Whittier—seeing at first hand what this pioneer industrial school does to train Indian and colored youth for service on the farm, in the shop, in the classroom and in the home.

Thursday morning there is to be a meeting of Hampton Institute board of trustees, of which ex-President Taft is the president.

Gov. Stuart to Preside.

Gov. Henry C. Stuart of Virginia is to preside at the exercises which will be held in connection with the laying of the corner stone of the Ogden Auditorium. Addresses are to be delivered by Dr. Edwin A. Alderman, president of the University of Virginia; David F. Houston, Secretary of Agriculture; Dr. P. P. Claxton, United States com-

missioner of education; Robert R. Moton, principal of Tuskegee, and President Wilson. On Thursday night members of the southern education board are to speak on the life and work of Dr. Robert C. Ogden.

GOES OVER FOR WEEK.

Nomination of Mr. Rublee for Trade Commission Held by Senate.

The nomination of George Rublee of New Hampshire as a member of the federal trade commission, which was favorably reported to the Senate by the interstate commerce committee Saturday, was

before the Senate yesterday for a short time and was allowed to go over until Monday.

It was admitted by democrats that the nomination would be defeated, as at least one-half of the democrats would vote against it, it was declared. Objection among the democrats to Mr. Rublee's confirmation is said to be largely due to the fact that he favored the so-called Stevens bill, introduced in the House, which would allow manufacturers to dictate what the prices paid by the ultimate consumer should be.

Senator Gallinger, the republican leader, has fought the confirmation of Mr. Rublee on the ground that the appointment was postponed in order to give the President an opportunity to withdraw the nomination if he desired. On the other hand, some of the senators expressed the opinion that the nomination would not be withdrawn in any event.

If you want work, read the want columns of The Star.

FINANCIAL REVIEW DECLINED.

Supreme Court Refuses Plea of C. H. Davis and Others in Power Suit.

The Supreme Court of the United States yesterday declined to review the financial situation arising out of the consolidation of corporations engaged in electric lighting and transportation in and near the cities of Richmond and Petersburg, Va., as embodied in the suit of Charles Hall Davis against the Virginia Railway and Power Company and others.

This action by the court allows to stand the order of the fourth United States circuit court of appeals directing the federal district courts in eastern Virginia to ascertain what was the value of all the property, if any, including the attached good will, diverted from the Richmond Passenger and Power Company by the Virginia

Passenger and Power Company or the receivers which was subject to a mortgage securing certain debenture bonds.

DREDGING CONCERN LOSES.

Maryland Dredging Company Cannot Recover \$7,530 From U. S.

The Maryland Dredging and Contracting Company yesterday lost its suit in the Supreme Court of the United States to recover from the government \$7,530 deducted by the government as liquidated damages for delay in the company completing for the government a channel fifteen miles in length from Beaufort inlet to Pamlico sound, N. C.

The company claimed that the delay was due to "abnormal" force and violence of the elements, and thus excused under the terms of the contract for the digging of the channel. The obstruction alleged to have been set

up by the elements was the remains of a submerged forest encountered eight feet below the bottom of Adams creek, part of the channel. The government contended that to excuse the delay the action of the elements must have taken place after the contract was entered into, and no evidence of this occurring had been presented. This contention was sustained by the Supreme Court.

Prof. Henry Sale Halbert Dies.

MONTGOMERY, Ala., May 9.—Prof. Henry Sale Halbert, one of the founders of the Waco (Baylor) University of Waco, Tex., died at a local infirmary last night following an illness of about three months. He was in his eightieth year.

2,000 Bales of Cotton Destroyed.

PARIS, Tex., May 9.—The plant of the Transcontinental Compress Company here and about 2,000 bales of cotton have both been destroyed by fire. The loss is estimated at \$150,000.
